

Oerlikon is presenting a hybrid trade show concept at ITMA Asia in Hall 7, booth A54

oerlikon

Clean Technology. Smart Factory.

New component exhibits for continuous polycondensation, filament (POY, FDY, IDY, BCF), staple fiber spinning, texturing and nonwovens production incl. digital solutions.

- **New DTY eAFK Evo** generation with up to 25 % energy saving and up to 30 % higher production speed, easy maintenance and best yarn quality: **EvoCooler** will be shown as an exhibit in combination with **digital solutions** like **AIM4DTY**. Invitation to our **Open House** at our Oerlikon plant in Suzhou.
- **New Aramid and Spandex gear metering pumps** as exhibits.
