

Press Release

Oerlikon Manmade Fibers Division at ITMA ASIA + CITME in Shanghai, China

Hybrid trade show concept with various innovations for the entire manmade fibers industry

Remscheid, February 25, 2021 – This year's trade fair appearance of Oerlikon's Manmade Fibers Division at ITMA ASIA + CITME will focus on the latest machine and plant developments as well as customer services around the motto "Clean Technology. Smart Factory." In Hall 7 of the China National Exhibition and Convention Center (NECC), Shanghai, Oerlikon will present as one of the leading suppliers for high-end technology solutions for the entire manmade fibers industry its innovations from 12 to 16 June 2021 at its hybrid booth A48 on more than 225 m².

Oerlikon offers its customers solutions along the textile value production chain. The division with the competence brands Oerlikon Barmag, Oerlikon Neumag and Oerlikon Nonwoven thus supplies technology "From Melt to Yarn, Fibers and Nonwovens" for PET, PP, PA6 and other materials. Accordingly, the offers at the ITMA ASIA + CITME booth will be.

Due to the travel restrictions in the context of the Corona pandemic, Oerlikon relies on a hybrid booth concept. In addition to various new component exhibits from the fields of continuous polycondensation including gear metering pumps, filament (POY, FDY, IDY, BCF) and staple fiber spinning, texturing as well as nonwovens production, the dialog with customers will now more than ever after such a long time without a fair be at the center of the trade show activities. All Oerlikon experts from outside China will be able to be connected online in order to provide comprehensive support for the trade fair visitors together with the Chinese sales staff, technologists and engineers on-site. Especially in the field of digitalization and new solutions for the "Smart Factory", the intercontinental dialog at the whole time of the exhibition is a mandatory prerequisite for a successful trade fair.

About the Oerlikon Manmade Fibers division

With its Oerlikon Barmag, Oerlikon Neumag and Oerlikon Nonwoven brands, the Oerlikon Manmade Fibers division is one of the leading providers of manmade fiber filament spinning systems, texturing machines, BCF systems, staple fiber systems and solutions for the production of nonwovens and – as a service provider – offers engineering solutions for the entire textile value added chain.

As a future-oriented company, the research and development at this division of the Oerlikon Group is driven by energy-efficiency and sustainable technologies (e-save). With its range of polycondensation and extrusion systems and their key components, the company caters to the entire manufacturing process – from the monomer all the way through to the textured yarn. The product portfolio is rounded off with automation and Industrie 4.0 solutions.

The primary markets for the product portfolio of Oerlikon Barmag are in Asia, especially in China, India and Turkey, and – for those of Oerlikon Neumag and Oerlikon Nonwoven – in the USA, Asia, Turkey and Europe. Worldwide, the division – with more than 3,000 employees – has a presence in 120 countries with production, sales and distribution and service organizations. At the R&D centers in Remscheid, Neumünster (Germany) and Suzhou (China), highly qualified engineers, technologists and technicians develop innovative and technologically-leading products for tomorrow's world.
