DESIGN LINE
THE TIME FOR GREATER FLEXIBILITY
Oerlikon Balzers is a worldwide technology leader in surface solutions. Our BALINIT® coatings enhance the quality of genuine precision craftsmanship, even in the tiniest parts that make up a watch. Our innovative BALINIT® coatings make watch mechanism parts, watch housings and watch wristbands extremely resistant to wear. The coatings are also available in many attractive, decorative colours.

**More Reliable, More Robust and More Visually Appealing**

- **Large Selection of Colours**
  - Ideal for countless decorative uses
  - Highly resistant to chemicals and perspiration
  - Hypo-allergenic

- **Improved Performance**
  - Extremely hard layers
  - Highly scratch resistant
  - Low friction

- **Longer Service Life**
  - Outstanding protection against abrasive wear
  - Makes moving parts highly resistant to wear, even in the case of inadequate lubrication or if the parts are being run dry

**Outstanding Colour Accuracy**

**Highly Reliable Performance Due to Reduced Wear**

**Longer Maintenance Intervals and Reduced Lubrication Use**
