In % of sales	22.2%	21.4%	+0.8pp	–	21.6%	-0.2pp	–
EBIT	161	157	+2.5%	–	40	-4.8%	–
In % of sales	13.0%	12.7%	+0.3pp	–	12.3%	-0.7pp	–

Operational performance:

- Slight FY sales growth driven by tooling services and friction systems within automotive – positive momentum in Q4
- Commodity prices in materials business impact top-line (9m) despite almost stable volumes
- Increase in TS equipment but lower TF equipment sales
- Good EBITDA profitability at 22.2% → excluding one-offs¹ maintaining guided corridor
- Investments in Additive Manufacturing and Thin-Film

Market development:

- Tooling market flat in 2016: Softening in Europe/US, compensated by China/Japan
- Automotive market overall slightly growing driven by strong development in Asia
- Aviation continued to grow: new engine programs globally and stronger MRO² in Asia
- Power Generation with slight industry growth
- Oil & Gas remains on low level
- General Industry aligned to IP³

¹ Incl. restructuring CHF -4m (2015: CHF -2m) and CHF 13m from pension plan adjustments; ² MRO = Maintenance, Repair & Overhaul; ³ IP = Industrial Production

Manmade Fibers Segment – Turnaround in Q4 2016 with book-to-bill of 1.38

in CHF million	FY 16	FY 15	y-o-y	y-o-y ex FX	Q4 16	y-o-y	y-o-y ex FX
Order intake	577	733	-21.3%	-22.0%	195	+29.1%	+29.8%
Sales (3 rd parties)	481	794	-39.4%	-39.8%	141	-27.7%	-26.7%

In % of sales	-0.6%	8.4% ¹	-9.0pp	–	2.3%	+14.2pp	–

Operational performance:

- Turning point in order intake in Q4 by securing large filament project in China
- Sequentially increased sales in Q4 due to execution of order backlog and higher POC³
- Positive effect from successful execution of restructuring
- FY EBITDA margin at 3.3 % in line with expectation, improved in Q4 also when excl. one-offs²
- After-sales business slightly improved in absolute terms despite lower FY sales

Market development:

- China's market sentiment fully in line with 5-Years-Plan
- ITMA Asia in Q4 triggered new project activities → Tier 1 customers driving market consolidation in filament market
- Positive 2016 development in Texturing, BCF⁴ and Staple Fibers
- Polymer Processing in 2016 behind expectations, creating potentials for 2017
- Competitive environment and project landscape challenging

¹ Incl. one-time restructuring costs (CHF -43 million); ² Including restructuring adjustments (CHF 3 million) ³ POC = Percentage of completion; ⁴ Bulked continuous filament (carpet yarn)

In % of sales	2.0%	-82.3% ^{1,2}	+84.3pp	–	8.3%	>100pp	–

Operational performance:

- FY order intake improved based on new project wins in e-mobility, public transport in China and agriculture in India
- FY sales still reflects the challenges in end markets, Q4 up yoy and sequentially
- Reshaping /restructuring measures show good traction → Q4 with double-digit margin (13.6%), even when excluding one-offs³ (11.0%)
- Continued repositioning effort for future opportunities

Market development:

- Agricultural overall bottoming → Still weak in the US/Europe, positive in India/Brazil
- Construction equipment with reduced level in the US, some recovery in China and Europe, positive in India
- Transportation market mixed; global strengths in commercial vehicles and weakness in freight rail (US)
- Mining and O&G remain weak
- Automotive with increasing activities in e-vehicles

¹ Incl. one-time restructuring costs (CHF -68 million); ² Incl. impairments (CHF 476 million) ; ³ Include restructuring adjustments (CHF 5 million)

Oerlikon's strategic priorities confirmed – focus on execution / operational performance

oerlikon

Additive Manufacturing – becoming a business in a growth market

Additive Manufacturing

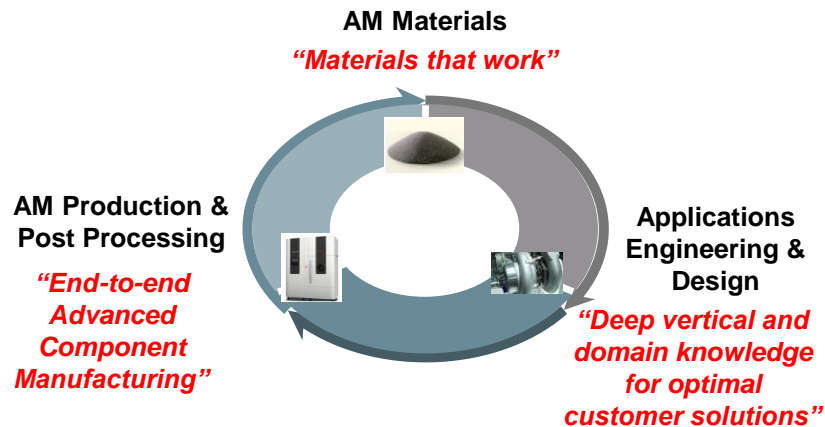

- AM is moving from lab/machines to a business
- Aerospace/defense, medical/dental and general industry as major AM segments
- Small series production and prototyping drive the market currently
- Prototyping and Tooling will remain an important factor as entry points to production opportunities
- Mass production in AM is not yet a reality
- Logical step for Oerlikon to develop from surface into the structure – leverage expertise

Market segment dynamics*

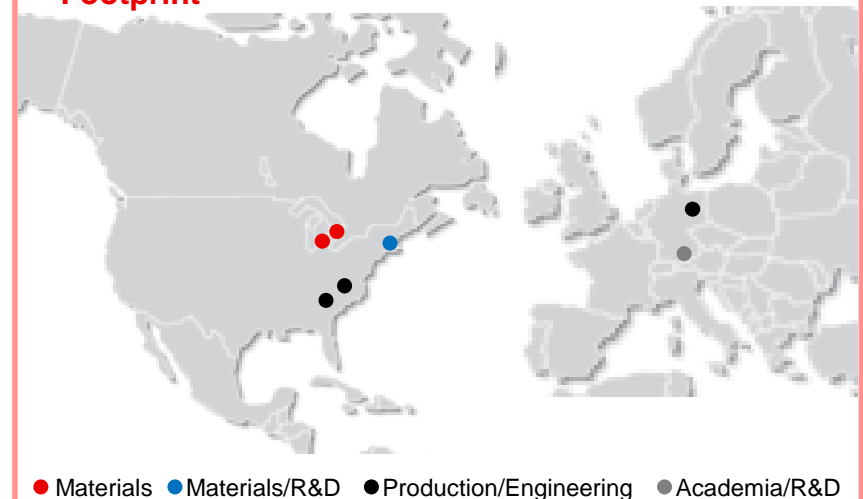

Oerlikon Value Proposition

“Industrializing AM for reliability, productivity performance”

Footprint

* Served, metal-based AM market, “Wohlers Report 2017”, figures rounded

What impacts (1)? – Strategic AM investment with impacts on Group in 2017 and beyond

AM Investments

Industrialize AM – become an integrated service player and a leading materials manufacturer:

- Expand in high volume manufacturing of for specialized powders/alloys (CapEx & M&A)
- Enlarge service market shares gaining economies of scale and scope (CapEx & M&A)
- Increase applications engineering & design (Organic & M&A)

AM Investment Case

What impacts 2017 (2)? – Leaving the trough behind in Manmade Fibers

Market developments / Trends

- Filament Market China according to 5-Year-Plan
- Key players return to the table – larger projects under negotiation since ITMA
 - Long term market growth parameters intact
 - Capacity left the market in 2016
 - Utilization increasing
- Challenging competitive environment
- Solid project landscape
- Oerlikon manmade fibers business:
 - Filament - Maintaining share
 - BCF – Benefit from overall growth of market
 - Staple Fibers – Significant increase
 - Polycondensation – Benefit from demand for differentiated products

Oerlikon focus

- Defend market share in Filament and gain market share in Staple Fiber
- Pricing in initial, large filament projects
- Accelerate non-filament activities
- Cost discipline and further optimization

What impacts (3)? – Development of key end markets short-term and mid-term

	<u>Markets Outlook 2017</u>	<u>Markets mid-term</u>	<u>Group Exposure 2017E</u>

2017 Group outlook – Organic growth and investments in Additive Manufacturing

Underlying Group/Segment assumptions

- Oerlikon Group**
- Economic and political environment to remain volatile
 - Around 6% organic sales growth
 - EBITDA margin around prior year level excluding the investment expenses in AM business – reported ~13%
 - Smaller acquisitions included in guidance

- Surface Solutions Segment**
- ~ 3 % organic sales and order growth
 - Maintaining EBITDA margin in corridor of 20 – 22% excluding AM investments (reported 18 – 20%)
 - Investment expenses in Additive Manufacturing to impact Segment EBITDA margin by up to 200bps

- Manmade Fibers Segment**
- Recovering from trough level seen in 2016
 - Securing bigger orders increasing orders and sales to around CHF 600m in 2017
 - Gaining market share in staple fibers in 2017
 - Margin impacted by competitive environment

- Drive Systems Segment**
- Order intake to slightly increase due to new business wins and potential recovery of end markets in H2 2017
 - Sales around prior years level
 - EBITDA margin slightly improving as result of continued execution of repositioning initiatives

¹ Including CHF 70 - 75m related to additive manufacturing (AM); ² Including full absorption of all related investment expenses in AM

Create a global surface solutions and advanced materials powerhouse

1. Strategic way-forward confirmed and focus on execution
→ In-line 2016 results, strong balance sheet
2. Dividend of 30 Rappen per share proposed to shareholders at AGM (April 11, 2017)
→ ~3% dividend yield at current share price level
3. 2017 attractive top-line growth – Group margin impacted by investment expenses in Additive Manufacturing and Manmade Fibers path of recovery
→ Enlarge platform for profitable mid-term growth

Thank you.

Repayment of bond reduced net financial result of minus CHF 23 million

Financial result bridge 2016

In CHF million

- Financial income mainly driven by cash position
- Financial expenses predominantly related to the bonds outstanding and post-employment benefit plans
- In 2017 Oerlikon continues to expect a zero interest environment
- Net financial result reduced to CHF -23m vs. CHF -33m in 2015

Tax rate of 39 % – result of higher earnings and higher withholding tax on dividends

- Main tax-paying entities are in China, India and Switzerland
- Increased tax rate due to higher earnings and higher withholding taxes on dividends, which could only be partially mitigated with recognition of deferred tax assets on tax loss carry forwards
- Tax rate expectation for 2017 to remain around 2016 levels, however going forward to convert back to around 30 %

¹ FY 2016 continuing operations

Divestments¹ impacting result from discontinued operations

Net result bridge 2016

In CHF million

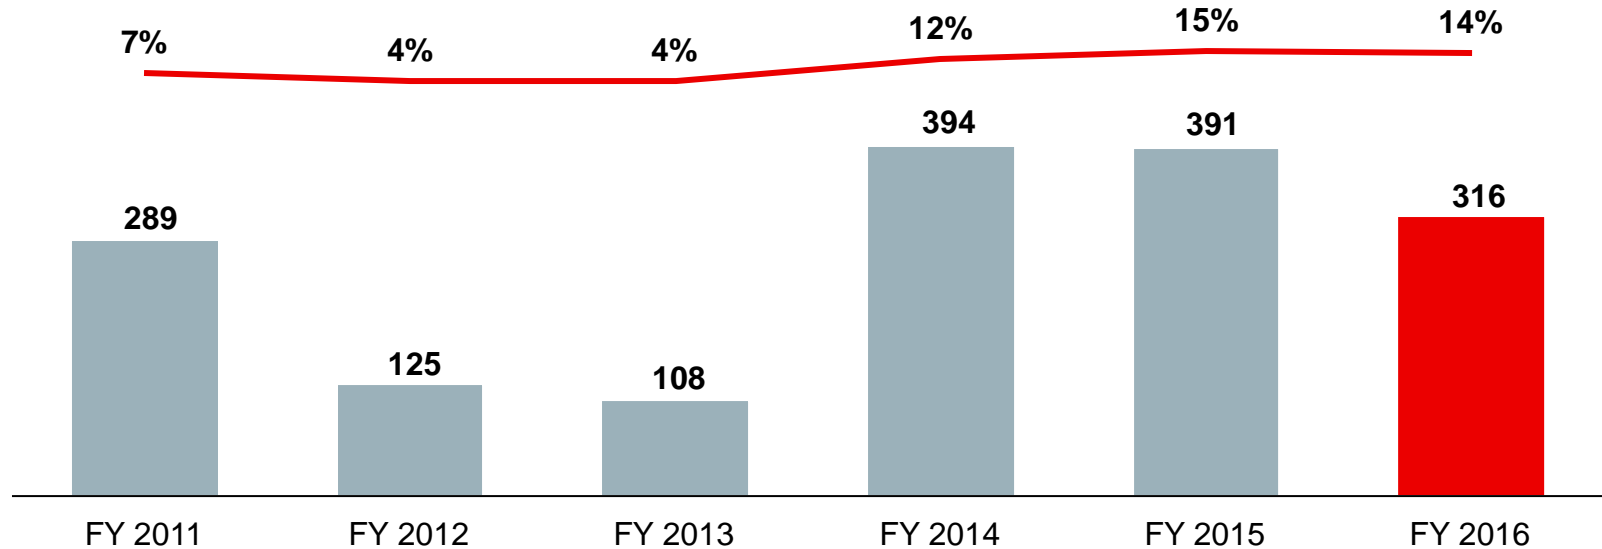

- Result from operating activities within discontinued operations and gain on sale attributable to closing of Vacuum Segment divestment
- Negative result in discontinued operations mainly attributable to non-cash cumulative translation differences of negative CHF 29 million

¹ Divestment of Vacuum Segment closed on August 31, 2016

Active net working capital management and increased customer advances

Net working capital¹ FY 2011 – 2016

In % of sales; in CHF million

- Net working capital reduced to 9% of sales due to increased customer advances up by CHF 35 million to CHF 167 million mainly in the Manmade Fibers Segment
- Active net working capital management with declined receivables and lower inventories

¹ Net working capital is defined as trade receivables + inventories – trade payables – current customer advances

Constant range of investments in R&D at high level of CHF 94 million in 2016

Investments in R&D (expenditure) in the range of around 4 % of sales

In CHF million; as % of sales

- R&D essential to secure technological leadership
- Constant range of around 4 % of sales
- Focus on Surface Solutions Segment representing 67% of Group R&D expenditure
